

Sanger SCAD Conference

Friday, April 19, 2024 | 7:30am - 5:00pm

Sanger Heart & Vascular Institute
1237 Harding Place, Charlotte NC

The 2024 Sanger SCAD Conference will immerse attendees in a case-based learning environment focused on spontaneous coronary artery dissection (SCAD). Recent research findings on SCAD and updated recommendations for the care of patients with SCAD will be discussed through the lens of the practicing physician caring for the patient who has experienced SCAD.

Engagement in the 2024 Sanger SCAD Conference will provide participants with a fresh perspective on appropriate testing, treatment planning, and clinical recommendations.
