

Agenda

Cord Blood Cellular Engineering to Cure Patients

5:30 pm	Check In
5:45 pm	Welcome (Deirdra Taylor & Dr. Ngina Connors)
5:45 pm – 6:30 pm	Dinner & Networking
6:30 pm – 6:50 pm	Atrium Health Cord Blood Data, Participating Facilities, & Staff (Deirdra Taylor)
6:50 pm – 7:10 pm	Patient testimonial (Eseosa Evbuomwan- Sosa's Story)
7:10 pm – 8:15 pm	Main Guest Speaker (Dr. Jeffrey Huo)
8:15 pm – 8:30 pm	Q&A, Closing Remarks (Dr. Jeffrey Huo, Deirdra Taylor, Dr. Ngina Connors)

Objectives / Outcomes

- Recognize the medical deed for a diverse population of cord blood donors to serve a diverse population of cancer and blood disorder patients
- Identify the expanding applications of cord blood derived therapies
- Discuss the importance of research using cord blood, to help encourage patients to allow their units otherwise unusable clinically to be used for research
- Discuss the need for help recruiting cord blood donors especially from minority population
